SKILLS

- C#
- ASP.NET Core, ASP.NET Framework, ASP.NET MVC
- Web API, Web Services, Microservice, REST API
- Agile Scrum Model
- Git Hub, SVN, Azure DevOps
- SQL, MS SQL Server, ORACLE
- Elastic Search, MongoDB
- Cloud Computing, GCP

CERTIFICATIONS

- Google Cloud Certified Associate Cloud Engineer

SUMMARY

Technology Lead and Cloud professional with 8+ years of software development experience in Logistics, Banking and IOT domains, and I have gained expertise in various areas of software development, including requirement gathering, analysis, design, development, debugging, testing and estimation.

I have strong programming skills in C# and SQL, and I have worked on microservice architecture and developed efficient code using different design patterns. I have created many web applications using ASP.NET, ASP.NET MVC, and ASP.NET core frameworks, and I have extensive experience in creating Web APIs using .NET core, .NET 6.0 and lower versions. I have also migrated critical on-premise services to cloud platforms, such as Google Cloud. I am passionate about learning new technologies and enhancing my skills. I am a team player, a problem solver, and a fast learner, and I always strive to deliver high-quality solutions that meet the client's needs and expectations.

EXPERIENCE

Technology Lead | Cloud Professional Infosys

07/2022 - Current

- Worked with client for the requirement analysis and creating design for the requirements and worked with software architects for the design reviews.
- Lead the team for the migration of critical on-prem microservices to the cloud service.
- Based on the design requirements, created

EDUCATION AND TRAINING

MCA

Marthoma Institute of Information Technology, Kerala University

Duration: 2011-2014

Percentage: 72%

BSC (ELECTRONICS)

Marthoma College of Information Technology, Kerala University

Duration: 2008-2011

Percentage: 72%

12th (Computer Science)

M.M.H.S.S, Government of Kerala.

Duration: 2006-2008

Percentage: 73%

S.S.L.C

M.M.H.S.S, Government of Kerala.

Duration: 2003-2006

Percentage: 81%

stories, groomed the stories with team and created estimates for the stories.

- Mentored junior developers, explained the task requirements to the junior developers and helped them to complete the task in the given time frame.
- Worked for creating the different platform microservices and helped teams to integrating the services to the consuming applications.
- Worked for PR Reviews for different applications, done code refactoring and created unit test case for newly created Web API's.
- Worked on different security-based requirements, made code changes for implementing the functionalities like account lockout for improving the security of the website.

Technology Analyst Infosys

07/2020 - 07/2022

- Worked on creating Web API's corresponding to old legacy application, decommissioned old legacy application and newly created Web APIs are successfully integrated in all consuming application.
- Worked as a SME for a critical application that deals with user information, their roles and permissions.
- Analyze requirements for making changes in existing APIs or creation of new Web API's and design changes are done for accommodating the user requirement.
- Worked on DB changes, stored procedure creation and changes as part of new requirements.
- Working on new Web API's creation for the microservices, integration with different consuming application and worked with

DevOps for the deployment for the newly microservices.

- Worked on different performance tickets that helped to increase the overall performance of the application.

Senior Systems Engineer

Infosys

08/2018 - 06/2020

- Based on the existing project requirement, done the code changes in the existing application.
- Worked on peer programming and peer dev testing of the code changes.
- Bug Fixing and testing of the existing application.
- New Web APIs are developed based on the requirements.
- Worked on DB and stored procedure changes as part of new requirements.
- Worked on project that having the CQRS patterns and deployed the projects as microservices.

Software Engineer

Distinct Infotech Solutions

07/2017 - 08/2018

- Analyze design requirements and solutions for the change requests.
- Develop and implement application coding and development standards.
- Provide technical support to the Clients for improve existing applications.
- Creating back-end databases for the application.
- Bug Fixing and testing the application.
- Writing test cases for testing the application.
- Review and solve technical problems in the existing application.
- Hosting and maintaining application in test and live environment.
- Develop and maintain all project documentations.

Software Engineer

QAgate Technologies

03/2016 - 06/2017

- Understanding existing project requirements.
- Analyze and provide application design solutions and alternatives.
- Updating the code as per the user requirements.
- Creating back-end databases for the application.
- Updating stored procedure to meet the user requirement.
- Bug Fixing and testing the application.
- Writing test cases for testing the application.
- Review and solve technical problems in the existing application.

PROJECTS

Title: **RXO Logistics**

Technology: **ASP .NET Core**

Programming language: **C#**

Database: **MS SQL SERVER 2018, Elasticsearch**

Development tool: **Visual Studio 2022, Visual Studio Code**

Project Description: RXO Logistics has been a leader in brokered transportation that help to shippers and carriers to move freight efficiently. The Company specializes in freight forwarding, truckload, and supply chain management, as well as offers data science, technology operations, and machine learning solutions. RXO operates in the United States, Canada, and Mexico.

Title: **XPO Logistics**

Technology: **ASP .NET Core**

Programming language: **C#**

Database: **MS SQL SERVER 2018, Elasticsearch**

Development tool: **Visual Studio 2022, Visual Studio Code**

Project Description: XPO Logistics is an American transportation and contract logistics company that manages supply chains for 50,000 customers worldwide, including 69 of the Fortune 100. It operates in 30

countries, with approximately 100,000 employees.

Title: **ISHIELD**

Technology: **ASP.NET**

Programming language: **C#**

Database: **ORACLE, MongoDB**

Development tool: **Visual Studio 2015**

Project Description: Ishield is an Anti-Money Laundering (AML) application is used to efficiently monitor and block the Suspicious transactions. Ishield offers analytics that increase the ability to reduce manual exceptions, clearly understand risk in the customer base and powerful solutions for enhanced due to diligence that help to identify priority of those risks. This integrates into the systems and provide flexibility and the highest level of security and privacy. It can be used to optimize the integrity of the process maintain public trust and scrutiny of customer.

Title: **SwannOne**

Technology: **ASP .NET**

Programming language: **C#**

Database: **MS SQL SERVER 2012**

Development tool: **Visual Studio 2015**

Project Description: SwannOne offers connected home automation functions to secure your home and loved ones, allowing you to control security devices, household appliances, lighting and heating systems to make your home a smart home. Various energy management devices can also be incorporated to monitor household power consumption, provide remote access and home lighting automation.

Title: **Sprue**

Technology: **ASP .NET**

Programming language: **C#**

Database: **MS SQL SERVER 2012**

Development tool: **Visual Studio 2015**

Project Description: Sprue is an IoT based Security System, which allows you to control every element of your business from a website, or from a mobile app. Using this website the property owner or end user access to their local network and receive push to app notification on the status of their alarm network.

PERSONALITY TRAITS

- Smart Worker.
- Adaptability, Knowledge and Focus on work.
- Excellent communication skills in written and verbal both.
- Positive attitude towards career and life.

PERSONAL DETAILS

Father's Name: Muhammed Rafi

Date of Birth: 11/30/90

Gender: Male

Nationality: Indian

Marital Status: Married

Address: Thekkadom, Karunthalacodu,
Kaithodu.p.o, Nilamel, Kollam
Kerala- 691535

Hobbies: Reading, Watching movies, Internet Surfing.

Languages Known: English and Malayalam
